**Evolution Markets to Host Renewable Energy Certificate Auction for the
Massachusetts Clean Energy Center**

-- Sale of 5,368 Massachusetts Class I RECs Scheduled for November 16, 2017 --

White Plains, NY (November 8, 2017) Evolution Markets Inc. announces today it will conduct an auction of Renewable Energy Certificates (RECs) on behalf of the Massachusetts Clean Energy Center (MassCEC). The auction is slated for November 16, 2017 and includes RECs from four separate projects. For this auction, MassCEC plans to offer 5,368 Vintage 2017 Massachusetts Class I Renewable Certificates generated in the 2017 Calendar Year.

"We are pleased to once again assist MassCEC in marketing the credits from its renewable energy projects," said Peter Zaborowsky, Managing Director, Environmental Markets at Evolution Markets. "Their supply includes credits from a diverse portfolio of in-state wind and solar PV projects that will satisfy the needs of both voluntary and compliance REC buyers, and we look forward to good participation in this event."

The auction will feature RECs generated by four different renewable energy projects: the Green Affordable Housing Initiative Photovoltaic Installation Aggregation project, the Fairhaven Wind LLC facility, the City of Brockton Brightfield project, and the Kingston Wind Independence LLC facility. Renewable energy certificates from each project have been approved by the Massachusetts Department of Energy Resources (DOER) as eligible sources under the Massachusetts Renewable Portfolio Standard (MA RPS). These RECs will be sold in one lot.

Through the Renewable Energy Trust Fund, MassCEC promotes clean energy technologies and provides funding to help develop renewable energy projects in the Commonwealth. For some projects, the agency enters into long-term agreements to purchase a portion of the renewable energy certificates, which are then sold to generate additional revenue for use in MassCEC programs.

The auction will use Evolution Markets' proprietary online auction platform, EvoAuctionSM. Bidders interested in participating are required to obtain a user account for Evolution Markets' on-screen, secure auction platform, and may directly enter secure, confidential bids according to the rules of the auction. Bidders may also submit bids via telephone, on a recorded line, to be entered into the on-screen auction platform by Evolution Markets on their behalf.

Interested market participants may register with Evolution Markets by emailing Peter Zaborowsky at: pzabo@evomarkets.com. Qualified bidders will be provided a login ID and password, and they will be able to post bids beginning at 10:30 am EST on the day of the auction. All bids will remain anonymous to the market. Qualified bidders will be able to view all bids posted until the end of the open bidding period at 11:30 am EST on the auction day. Bidders that submitted bids during the open phase will then have until 12:00 pm EST to submit their final sealed bid either online or by telephone. Final sealed bids will not be available for viewing. Participants wishing to submit bids via telephone will have their bids entered into the online system by Evolution Markets.

An auction notice and REC Sales Agreement for bidder consideration are available from Evolution Markets and on MassCEC's website. Counter-proposals to the terms of the REC purchase and sale contract will be considered by November 10, 2017. However, no post-bid acceptance contract negotiations are permitted. Material questions about the auction, the generators, or other such information should be submitted in writing to MassCEC (details below) no later than November 10, 2017 at 12 p.m. EST, and will be responded to in written form no later than November 13, 2017 at 4:00 p.m. EST. Please see official Auction Notice for more details.
